The rates of return depicted are used only to illustrate the effects of the compound growth rate and are not intended to reflect future values of the fund or returns on investments in the fund. The "Growth of \$10,000" chart shows the final value of a hypothetical \$10,000 investment in the fund as at the end of the investment period indicated and is not intended to reflect future values or returns on investment in Class A. Distributions are fixed rate distributions that may include both taxable income and return of capital. *Distribution yield is based on NAV as at April 30, 2026. Further information is available at www.middlefield.com/funds/tax-reporting.

You will usually pay brokerage fees to your dealer if you purchase or sell shares of investment funds on the Toronto Stock Exchange or other alternative Canadian trading system (an "Exchange"). If the shares are purchased or sold on an Exchange, investors may pay more than the current net asset value when buying and may receive less than the current net asset value when selling them.

There are ongoing fees and expenses associated with owning shares of an investment fund. An investment fund must prepare disclosure documents that contain key information about the fund. You can find more detailed information about the fund in these documents. The indicated rates of return are the historical annual compounded total returns, including changes in unit value and reinvestment of all distributions, and does not take into account certain fees such as redemption fees or optional charges or income taxes payable by any securityholder that would have reduced returns. Investment funds are not guaranteed. their values change frequently and past performance may not be repeated.
