

# THIRD QUARTER REPORT 2003

For the quarter ended September 30, 2003

Press Release

MINT *Income Fund* ("MINT") is pleased to present its unaudited financial results for the three months ended September 30, 2003, the details of which are attached.

Quarterly distributions paid by MINT increased to \$0.20 per unit for the quarter. This represents an increase of \$0.02 per unit or 11% over the previous distribution rate. On an annualized basis, the increased distribution rate of \$0.80 per unit represents a cash-on-cash yield of approximately 9.5% per annum based on a unit market price of \$8.40. MINT's total return for the three months ended September 30, 2003 was 7.1% and the total return for the past twelve months was 23.2%.

As at September 30, 2003 the asset class weightings for MINT's portfolio were:

| Asset Class                          | Portfolio Weighting |
|--------------------------------------|---------------------|
| Business Trusts                      | 40.3%               |
| Real Estate Investment Trusts        | 22.3%               |
| Oil and Gas Royalty Trusts           | 21.5%               |
| Pipeline and Power Generation Trusts | 14.3%               |
| Cash                                 | 1.6%                |

During the quarter, approximately \$3 billion of new income trust issues and follow-on offerings have been completed, led by the much anticipated \$1 billion Yellow Pages Income Fund IPO, bringing the total value of the income trust sector to over \$70 billion. Notwithstanding the positive flow of funds into the income trust sector during the quarter, uncertainty arose in a limited number of business trusts as a result of structural issues. The Fund has effectively mitigated the impact of these issues through careful security selection and broad diversification. This is evidenced by an increase in MINT's net asset value per unit from \$8.09 to \$8.46 during the quarter. Business trusts, represented by over 65 issuers across a number of industries, will continue to comprise a significant weighting in MINT's portfolio anchored by the stability of REITs. This strategy seeks to provide a positive balance of high current income, significant tax deferral and capital appreciation potential.

The objectives of MINT are to provide unitholders with a high level of sustainable income distributed quarterly over the life of the Fund. Forward distributions paid by MINT provide an attractive cash-on-cash yield of approximately 9.5% and are highly tax efficient.

# MINT trades on the Toronto Stock Exchange under the symbol "MID.UN".

# MANAGEMENT'S DISCUSSION AND ANALYSIS SEPTEMBER 30, 2003 AND 2002 (UNAUDITED)

The following discussion and analysis should be read in conjunction with the attached unaudited interim financial statements. Readers should also refer to Management's Discussion and Analysis in the Fund's 2002 Annual Report. Management is responsible for the existence of appropriate information systems, procedures and controls to ensure that information used internally and disclosed externally is complete and reliable.

# SECTOR ANALYSIS BUSINESS TRUSTS – 40.3%

During the third quarter of 2003, the Fund's overall exposure to the business trust sector decreased to 40.3%. Specific unit prices were impacted by the uncertainty regarding potential U.S. cross-border tax issues. The advisor is reviewing the various tax structures for Canadian income trusts with U.S. operations on a case-by-case basis with specific focus on the type of structure being employed and the tax loss carry-forwards available for future tax shelter. MINT eliminated its position in Atlas Cold Storage prior to its accounting restatement on August 30<sup>th</sup>. This decision was made in response to a reduction in its second quarter distribution as well as concerns with its valuation. The Fund has been very selective when considering new issues. MINT participated in the Yellow Pages Income Fund IPO during the quarter. Yellow Pages is the dominant telephone directories publisher in Canada with 93% market share in Ontario and Quebec. Attributes of the trust include its strong market position, high margins, low capital requirements and a large institutional unitholder base.

# REAL ESTATE INVESTMENT TRUSTS - 22.3%

During the third quarter, the Fund's overall exposure to the REIT sector increased marginally primarily due to price appreciation as well as the addition of new REITs to the portfolio. Investor demand continues to grow, as evidenced by approximately \$700 million in new equity issued by the Canadian REIT sector since the second quarter of 2003. Notwithstanding the weakened fundamentals in certain sectors such as office and lodging, the REIT sector continues to deliver attractive long-term returns and demonstrates a relatively high degree of predictability in distributable income. REITs have become more disciplined in reducing and maintaining lower payout ratios, which in turn should support current distributions into 2004. Calloway REIT was added to the Fund during the quarter as a result of its increased liquidity and improved quality resulting from its acquisition of a portfolio of retail properties from FirstPro Shopping Centres. As a result, FirstPro is the REIT's largest unitholder and a development partner, providing Calloway with a valuable strategic alliance to drive future growth. Borealis REIT, comprised of six shopping centers throughout Canada, was also added to the MINT portfolio. Borealis is expected to benefit from its diversified tenant mix as well as strong leadership from its sponsor.

# OIL AND GAS ROYALTY TRUSTS - 21.5%

Royalty trusts continued to perform exceptionally well during the third quarter. From a historical perspective, trust valuations appear to be reasonable in light of current and forecasted strong commodity prices. Low global oil inventories and geopolitical tensions should continue to support crude oil prices. In Iraq, the absence of stability and security will likely continue to delay efforts to restore pre-war production levels. The fundamentals for natural gas are also positive. During the quarter, MINT introduced two recent E&P conversions to its portfolio: Bonavista Energy Trust and Peyto Energy Trust. Bonavista is one of the largest trusts in the royalty trust sector and offers top-quartile netbacks, a low cost structure and above-average balance sheet strength. In addition, Bonavista's directors and officers are strongly aligned with unitholders with an aggregate 24% ownership interest. While Bonavista possesses one of the shorter RLIs in the royalty trust sector, its current market valuation offers excellent relative value. Peyto possesses the longest established RLI at 16.5 years and is the lowest cost operator in the royalty trust sector by a significant margin. As with Bonavista, insiders are strongly aligned with unitholders and bonus compensation is based on value created per unit. Peyto is leading a new operating

model for the royalty trust sector by adopting a conservative payout ratio of approximately 50% and reinvesting the remainder of its cash flow into its extensive development inventory.

#### PIPELINE AND POWER GENERATION TRUSTS – 14.3%

An investment in Enbridge Income Fund was completed during the third quarter. Enbridge Income Fund owns a 50% interest in the Canadian portion of the Alliance Pipeline and a 100% interest in four feeder pipelines transporting crude oil and liquids in Saskatchewan. Backed by an experienced management team, the trust is expected to use its equity as currency to acquire additional pipeline assets from Enbridge Inc. as well as from third parties.

#### **DISTRIBUTIONS TO UNITHOLDERS**

On August 11, 2003, MINT announced an increase in its quarterly distribution rate. A distribution of \$0.20 per trust unit was paid on October 23, 2003 to unitholders of record on September 30, 2003. This represents an increase of \$0.02 per trust unit or 11% over the previous distribution rate. On an annualized basis, the increased annual distribution rate of \$0.80 per unit represents a cash-on-cash yield of approximately 9.5% per annum based upon a unit market price of \$8.40. The actual per unit distributions for the past 12 months amounted to \$0.74 per unit.

# FINANCIAL PERFORMANCE

The net asset value per unit increased to \$8.46 at September 30, 2003 from \$7.56 at September 30, 2002, an increase of 12%. In addition, during the quarter the net asset value per unit increased \$0.37 over the net asset value of \$8.09 at the beginning of the third quarter of 2003. MINT's total return for the three months ended September 30, 2003 was 7.1%. The Fund's total return since September 30, 2002 was 23.2%.

Net investment income increased to \$0.21 per unit in the third quarter of 2003 compared to \$0.19 during the third quarter of 2002, an increase of approximately 11%, primarily due to a switch out of lower yielding debt issues into higher yielding royalty trusts and business trusts. Lower expenses and increased net assets in the third quarter of 2003 compared to the third quarter of 2002 resulted in a ratio of management fees and other operating expenses (excluding interest expense and bank charges) to average net asset value ("MER") of 1.44% for the three months ended September 30, 2003 compared to 1.59% in the third quarter of 2002.

### OUTLOOK

The outlook for income trusts remains positive. It is expected that the newly elected Liberal government in Ontario will pass an amendment to the Trust Beneficiaries Liabilities Act in 2004, thereby providing unitholders of a publicly traded trust the same limited liability as shareholders of a corporation. If accomplished, the likely result would be the gradual inclusion of the larger, more seasoned income trusts in the S&P/TSX Composite Index as well as increased demand for income trusts by pension funds seeking attractive total returns. Although the highs in commodity prices reached during 2003 are not expected to be sustainable going forward, oil and gas prices should remain strong thereby supporting royalty trust unit prices into 2004.

The current market capitalization of the income trust sector has surpassed \$70 billion, representing approximately 10% of the market capitalization of the TSX. The increasing number of corporations adopting the trust structure greatly enhances MINT's ability to diversify and provides an opportunity for higher returns.

# NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2003 AND 2002 (UNAUDITED)

#### 1. SIGNIFICANT ACCOUNTING POLICIES

The interim financial statements of MINT *Income Fund* (the "Fund") have been prepared in accordance with Canadian generally accepted accounting principles. They follow the same accounting policies and methods used in the Fund's financial statements for the year ended December 31, 2002. The Fund's interim financial statements should be read in conjunction with the financial statements for the year ended December 31, 2002 as set out on pages 17 through 21 of the Middlefield Income Funds 2002 Annual Report.

# 2. DISTRIBUTIONS

The Fund paid a cash distribution of \$0.20 per unit on October 23, 2003 to all unitholders of record on September 30, 2003. Distributions of the Fund, at the discretion of the unitholder, are reinvested in additional units of the Fund, under the Distribution Reinvestment Plan without sales charge.

### DISTRIBUTION REINVESTMENT PLAN

The Fund's Distribution Reinvestment Plan (the "Plan") allows unitholders to automatically reinvest quarterly distributions in additional units of the Fund. This feature provides unitholders with an excellent opportunity to benefit from compounding by investing distributions at a high reinvestment rate. Please contact your investment advisor to enroll in the Plan or contact Angela Wanniappa at (888) 890-1868.

#### FUND PROFILE

The primary objectives of MINT are to produce a high level of sustainable income and to minimize the risk of investing in high yield securities on a cost effective basis. MINT is comprised of the following asset classes: business trusts, real estate investment trusts, pipeline and power generation trusts and oil and gas royalty trusts. MINT is fully RRSP eligible. MINT trades on the Toronto Stock Exchange under the symbol "MID.UN".
