MIDDLEFIELD HIGH INTEREST INCOME CLASS

 MIDDLEFIELD
MUTUAL FUNDS

MIDDLEFIELD CORPORATE PROFILE

Founded in 1979, Middlefield is an income focused asset manager with offices in Toronto, Canada and London, England. Our investment team has developed a disciplined investment process over many years that seeks to identify attractive opportunities while evaluating the risks that impact returns. Our specialized suite of innovative investment solutions for both individual and institutional investors include Exchange-Traded Funds trading in Canada, the UK, Italy and Germany as well as Canadian Mutual Funds, Split Share Corporations, Closed-End Funds and Flow-through LPs. Our core business currently includes seven income mandates: Real Estate, Healthcare, Innovation, Infrastructure, Energy, Diversified Income and Fixed Income, all of which incorporate our focus on diversification in market sectors and companies which have the ability to generate growing levels of cash flows.

Middlefield's investment team comprises portfolio managers, analysts and traders. While all of our investment products are designed and managed by Middlefield professionals, some involve strategic partnerships with other "best-in-class" firms that bring unique value to our product offerings. In 2014, we entered into an exclusive arrangement with SSR, LLC, based in Stamford, Connecticut. They provide specialized research into sectors of the economy such as Healthcare and Innovation Technology. SSR is an independent investment firm whose analysts have been highly ranked and are recognized as leaders in their respective fields. Their fundamental company level research is often non-consensus and provides guidance on overall portfolio construction and security selection.

Looking ahead, Middlefield remains committed to managing and developing new and unique investment products to assist Financial Advisors in helping clients achieve their investment objectives.

A NOTE ON FORWARD LOOKING STATEMENTS

This document may contain forward looking statements, including statements regarding: the Fund, its strategies, goals and objectives; prospects; future performance or condition; possible future actions to be taken by the Fund; and the performance of investments, securities, issuers or industries in which the Fund may from time to time invest. Forward looking statements include statements that are predictive in nature, that depend upon or refer to future results, events, circumstances, expectations and performance, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" or negative versions thereof and other similar wording. Forward looking statements are not historical facts, but reflect the Fund's current beliefs as of the date of this document regarding future results, events, circumstances, expectations or performance and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors. Forward looking statements are not guarantees of future performance, and actual results, events, circumstances, expectations or performance could differ materially from those expressed or implied in any forward looking statements contained in this document. Factors which could cause actual results, events, circumstances, expectations or performance to differ materially from those expressed or implied in forward looking statements include, but are not limited to: general economic, political, market and business factors and conditions; commodity price fluctuations; interest and foreign exchange rate fluctuations; global equity and capital markets; the financial condition of each issuer in which the Fund invests; the effects of competition in the industries or geographic areas in which the Fund may invest; statutory and regulatory developments; unexpected judicial or regulatory proceedings; and catastrophic events. Readers are cautioned that the foregoing list of factors is not exhaustive and to avoid placing undue reliance on forward looking statements due to the inherent uncertainty of such statements. The Fund does not undertake, and specifically disclaims, any obligation to update or revise any forward looking statements, whether as a result of new information, future developments, or otherwise.

2026 MID-YEAR REVIEW AND OUTLOOK

Global markets ended the first half of the year near record highs, supported by a recent easing of Middle East geopolitical tensions and a surge in AI-related equities. Markets consolidated in June with the S&P 500 retracing 1.0% after gaining more than 16% over the prior two months, the index's strongest quarter in six years, still returning 10.2% for the first half. The TSX Composite outperformed in June with a 0.5% gain and returned 11.2% during the first six months of 2026. The period also saw the successful listing of SpaceX, the largest IPO on record, paving the way for additional AI-related listings over the coming quarters.

Canada's federal government has been moving aggressively on major infrastructure initiatives through the Building Canada Act and its Major Projects Office (MPO), which fast-tracks federal approvals for projects deemed in the "national interest." Prime Minister Carney's government is attracting foreign investors and capital as they advance initiatives spanning LNG, nuclear, critical minerals, and transportation. On the pipeline front, Canada and Alberta have agreed on a west coast pipeline proposal alongside the Pathways carbon capture initiative. Most TSX sectors advanced in June, led by Financials, while Materials was the most volatile sector as gold stocks reversed sharply late in the month as geopolitical risk eased and rate-cut expectations diminished.

The S&P/TSX Capped REIT Index delivered broadly positive returns in June, with most constituents posting gains in CAD terms, lifting its YTD total return to an impressive 13.6%. Notably, Canadian REITs have outperformed the TSX Composite (+11% YTD). The Canada 10-year government bond yield declined by 14.9 bps from a high of 3.529% on Jun 8 and provided a constructive tailwind for rate-sensitive REIT valuations. Our Real Estate funds continued to perform well, with **Middlefield Real Estate Dividend Class (MID 600 / MID 601)** generating a total Series F return of 4.1% in June and approximately 13.9% year-to-date. Our high conviction, active management investment style, with approximately 30% of portfolio assets outside of Canada, remains a major contributor to outperformance.

Healthcare had a terrific month, with the broad sector up 6.4% and each sub-sector participating in the rally. Biotech and pharma led the charge, each gaining ~10% on the month. Biotech has been the real standout and is now the top-performing sub-industry within US healthcare year-to-date, up 30%, after decisively breaking out from its multi-year period of underperformance. The rally has been powered by investor rotation back into the group, a wave of dealmaking (industry M&A is tracking for its best year ever), and positive clinical trial and regulatory news.

In the Infrastructure sector, June brought a landmark development for Alberta's data centre buildout, as Pembina Pipeline announced positive FID on the Greenlight Electricity Centre, a 932 MW natural gas-fired power project developed alongside KinetiCor. The \$4.6 billion project is underpinned by a long-term supply agreement with a major hyperscale customer (widely believed to be Meta) and is expected online in the second half of 2030. Beyond its direct economics, the Greenlight deal marks the first major data centre power project to reach FID in Alberta, effectively validating the province's emerging thesis as a North American AI

The Middlefield Family of mutual funds, which are listed at the end of this report, currently includes nine different funds within the multi-class structure and three mutual fund trusts. The multi-class structure of Middlefield Mutual Funds enables investors to benefit from superior tax efficiencies unavailable to other forms of investment funds. In addition, almost all classes are offered in F-Series.

infrastructure hub and opening the door to further announcements. **Middlefield's Global Infrastructure Fund (MID 510 / MID 501)** generated a total Series F return of 19.2% in the first half of 2026.

June served as a reminder that even strong secular themes need to pause. Technology stocks, particularly AI-linked semiconductors, went through a sharp but healthy pullback as investors reassessed positioning, valuation and the scale of AI capital spending. We do not view this as a sign that the AI buildout is weakening. Rather, we see it as a normal reset inside a powerful earnings cycle, and one that reinforces the importance of being selective. Despite the pullback in June, our **Middlefield Innovation Dividend Class (MID 925 / MID 926)** has generated a total Series F return of 49.0% year-to-date.

Gold and gold equities significantly underperformed broad North American markets in June, for the fourth consecutive month, with gold down 11.7% versus the 13.2% decline of the S&P/TSX Gold Index. The selloff in gold miners has driven equity valuations to multi-year lows. Despite the decline in bullion, gold miners are well positioned: (1) cost discipline has been much better vs previous cycles with near record margins better positioned to absorb lower gold prices; (2) balance sheets remain solid with mostly net cash positions; (3) spot free cash flow continues to provide scope for supportive/accretive buybacks; (4) management teams have remained disciplined on capital allocation, with lower valuations & strong balance sheets providing attractive M&A opportunities in a downcycle.

Outlook

We view the June decline as a healthy consolidation and leadership rotation rather than the start of a broader market pullback. Specifically, we witnessed the rotation out of mega-cap tech and into other sectors pushing the S&P 500 equal-weight index to record highs even as the cap-weighted index declined. We think this reflects an earnings recovery the market hasn't fully priced in. Earnings growth for the median S&P 1500 company has hit double digits (as seen in the graph below), the strongest pace in years, as reviving revenue growth flows through lean cost bases and produces outsized operating leverage. Investors are growing more concerned about heavy capex spending and its ultimate return on investment from the Mag-7. It's clear that market broadening is also occurring within the TSX. More specifically, while outperformance in 2025 was led by the rally in gold, 2026 is being driven by financials and energy, two sectors where Canada is a global leader and foreign investors are taking note.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

FOR THE SIX MONTHS ENDED JUNE 30, 2026

This interim management report of fund performance contains financial highlights but does not contain the annual financial statements of the investment fund. This report should be read in conjunction with the complete interim financial report of the investment fund that follows this report. The interim financial report has not been reviewed by the investment fund's external auditors.

Securityholders may contact us by calling 1-888-890-1868, by writing to us at Middlefield Group at one of the addresses on the back cover or by visiting our website at www.middlefield.com to request a copy of the investment fund's annual financial statements, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

Management's Discussion of Fund Performance

Investment Objective and Strategies

Middlefield High Interest Income Class (the "Fund") is a mutual fund class of Middlefield Mutual Funds Limited. The Fund's objective is to provide a high level of interest income, while emphasizing capital preservation and liquidity. The Fund invests in high quality fixed-income securities, with maturities of generally not more than three years, including treasury bills and other short-term debt instruments. Investments are predominantly issued or guaranteed by federal or provincial governments, banks, or trust and loan companies, and may also include high grade commercial paper issued by corporations.

Results of Operations

Investment Performance

The net assets of the Fund decreased from \$3.0 million at December 31, 2025 to \$2.8 million at June 30, 2026. Net assets on a per share basis increased from \$13.55 at December 31, 2025 to \$13.58 at June 30, 2026. The increase stemmed primarily from earnings within the Fund.

Revenue and Expenses

Revenue for the period ended June 30, 2026 amounted to approximately \$37,000, down from revenue of \$48,000 in 2025. The decrease was primarily due to decreased yields on the Fund's investments. Operating expenses for the period ended June 30, 2026 amounted to approximately \$31,000, up from \$27,000 in 2025, which resulted in a management expense ratio ("MER") of 2.14%.

Trends

June's positive returns were driven by continued income harvesting alongside small price gains as Canadian interest rates moved slightly lower and credit spreads widened by a couple basis points.

Related Party Transactions

Pursuant to a management agreement, Middlefield Limited (the "Manager" and the "Advisor") receives a management fee. For further details please see the "Management Fees" section of this report. Middlefield Limited also acts as the advisor to the Fund who receives advisory fees out of the management fee from the Fund. For further details please see the notes to the financial statements.

Management Fees

Management fees are calculated at 0.5% per annum of the net asset value of the Fund and are split between the Manager, the Advisor and investment dealers who receive trailing commissions. The Manager receives fees for the general administration of the Fund, including maintaining the accounting records, executing securities trades, monitoring compliance with regulatory requirements, and negotiating contractual agreements, among other things. The Advisor receives fees from the Manager for providing investment advice in respect of the portfolio in accordance with the investment objective and strategies of the Fund. The Fund did not pay any trailing commissions during the period ended June 30, 2026.

Financial Highlights

Net Assets Attributable to Holders of Redeemable Shares are calculated in accordance with IFRS[®] Accounting Standards as issued by the International Accounting Standards Board.

"Net Asset Value" is calculated in accordance with section 14.2 of National Instrument 81-106 "Investment Fund Continuous Disclosure" ("NI 81-106") and is used for transactional pricing purposes.

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the indicated years. Ratios and Supplemental Data are derived from the Fund's Net Asset Value.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

FOR THE SIX MONTHS ENDED JUNE 30, 2026

The Fund's Net Assets Per Share ⁽¹⁾ – Series A	June 30 2026 ⁽⁴⁾	December 31 2025	December 31 2024	December 31 2023	December 31 2022	December 31 2021
Net Assets Attributable to Holders of Redeemable Shares, Beginning of Period	\$ 13.55	\$ 13.42	\$ 13.00	\$ 12.44	\$ 12.20	\$ 12.17
INCREASE (DECREASE) FROM OPERATIONS:						
Total Revenue	0.17	0.41	0.66	0.67	0.28	0.09
Total Expenses ⁽³⁾	(0.14)	(0.29)	(0.23)	(0.09)	(0.04)	(0.06)
Realized Gains (Losses) for the Period	-	-	-	-	-	-
Unrealized Gains (Losses) for the Period	-	-	-	-	-	-
TOTAL INCREASE (DECREASE) FROM OPERATIONS ⁽²⁾	0.03	0.13	0.42	0.56	0.24	0.03
Net Assets Attributable to Holders of Redeemable Shares, End of Period	\$ 13.58	\$ 13.55	\$ 13.42	\$ 13.00	\$ 12.44	\$ 12.20

⁽¹⁾ This information is derived from the Fund's audited annual financial statements and unaudited interim financial report.

⁽²⁾ Net Assets Attributable to Holders of Redeemable Shares are based on the actual number of shares outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of shares outstanding over the financial period. This schedule is not a reconciliation of Net Asset Value since it does not reflect shareholder transactions as shown on the Statement of Changes in Net Assets Attributable to Holders of Redeemable Shares and accordingly columns may not add.

⁽³⁾ There were no distributions paid by the Fund.

⁽⁴⁾ For the six-month period ended June 30, 2026.

Ratios and Supplemental Data – Series A	June 30 2026 ⁽⁴⁾	December 31 2025	December 31 2024	December 31 2023	December 31 2022	December 31 2021
Total Net Asset Value (000s)	\$ 2,822	\$ 3,045	\$ 2,936	\$ 3,094	\$ 10,476	\$ 9,400
Number of Shares Outstanding	207,856	224,788	218,725	238,059	842,433	770,485
Management Expense Ratio ("MER")						
⁽¹⁾	2.14%	2.10%	1.76%	0.69%	0.34%	0.45%
MER before waivers or absorptions ⁽¹⁾	2.54%	2.49%	2.13%	1.06%	0.74%	0.70%
Trading Expense Ratio ⁽²⁾	-	-	-	-	-	-
Portfolio Turnover Rate ⁽³⁾	-	-	-	-	-	-
Net Asset Value Per Share	\$ 13.58	\$ 13.55	\$ 13.42	\$ 13.00	\$ 12.44	\$ 12.20

⁽¹⁾ The MER is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period. From 2012 to 2021, the manager waived 50% of the Fund's 0.50% per annum management fee. Commencing in 2022, the manager waived 70% of the Fund's 0.50% per annum management fee. The MER for the period ended June 30, 2026 would have amounted to 2.54% (June 30, 2025 – 2.22%) without the waiver. The Manager retains the right to discontinue this waiver any time.

⁽²⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽³⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio investments are managed. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

⁽⁴⁾ As at June 30, 2026 or for the six-month period ended June 30, 2026, as applicable.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

FOR THE SIX MONTHS ENDED JUNE 30, 2026

Past Performance

The performance information shown, which is based on Net Asset Value, does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-By-Year Returns

The bar chart shows how the Fund's performance has varied from year to year for each of the years shown. The chart indicates, in percentage terms, how much an investment made the first day of each financial period would have grown or decreased by the last day of the financial period.

*For the six-month period ended June 30, 2026.

NOTES TO FINANCIAL STATEMENTS

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2026 | UNAUDITED

1. Middlefield High Interest Income Class

Middlefield High Interest Income Class (the "Fund") is one of nine classes of issued mutual fund shares of Middlefield Mutual Funds Limited (the "Corporation"), a mutual fund corporation continued under the laws of Alberta. Effective January 1, 2017, switches between classes of a mutual fund corporation are considered a disposition at fair market value for tax purposes, resulting in the recognition of capital gains or losses for investors. The changes have not affected switches between Series A and Series F securities of the same Mutual Fund class. The Fund first issued shares on June 11, 2004. The investment objective of the Fund is to provide a high level of interest income by investing in high quality fixed-income securities. Middlefield Limited is both the manager and advisor of the Fund (the "Manager" and the "Advisor"). Effective April 1, 2025, Middlefield Limited became the Advisor of the Fund. Prior to April 1, 2025, Middlefield Capital Corporation was the Advisor of the Fund. The address of the Fund's registered office is 350 7 Ave SW Suite 3400, Calgary, Alberta. These financial statements, expressed in Canadian Dollars, were authorized for issuance by the board of directors of the Fund on August 21, 2026.

2. Basis of Presentation

These financial statements have been prepared in accordance with IFRS® Accounting Standards and in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB") and as required by Canadian securities legislation and the Canadian Accounting Standards Board.

3. Summary of Material Accounting Policies

A. Basis of Accounting

IFRS 9 *Financial Instruments* ("IFRS 9")

The Fund classifies and measures financial instruments in accordance with IFRS 9, which requires assets to be carried at amortized cost or fair value, with changes in fair value recognized in profit and loss or other comprehensive income, based on the entity's business model for managing financial assets and the contractual cash flow characteristics of the financial assets. The Fund's financial assets and liabilities are classified at fair value through profit or loss ("FVTPL") and amortized cost.

Classification, Measurement, Impairment and Hedge Accounting

The Fund classifies its investments in debt and equity securities based on its business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. These financial assets are managed and their performance is evaluated on a fair value basis. The Fund also manages these financial assets with the objective of realizing cash flows through sales. Further, an option to irrevocably designate any equity securities at fair value through other comprehensive income ("FVOCI") has not been taken. Consequently, these financial assets are mandatorily measured at FVTPL.

Financial assets or financial liabilities held for trading are those acquired principally for the purpose of selling or repurchasing in the near future or on initial recognition they are a part of a portfolio of identified financial instruments that the Fund manages together and has a recent actual pattern of short term profit taking. All derivatives and short positions are included in this category and mandatorily measured at FVTPL. The financial assets and liabilities measured at amortized cost include cash collateral posted on derivative positions, accrued income, due to and from brokers and other short term receivables and payables.

IFRS 9 uses the expected credit loss model ("ECL"), as the new impairment model for financial assets carried at amortized cost. The Fund's financial assets measured at amortized cost consist of trade receivables with no financing component and which have maturities of less than 12 months, as such, it has chosen to apply the simplified ECL approach, whereby any loss allowance is recognized based on the lifetime of ECLs. Due to the high quality and short-term nature of the trade receivables, there are no expected credit losses associated with them and they are not considered impaired at the reporting dates.

The Fund does not apply general hedge accounting to any of its derivatives positions.

B. Future Accounting Changes

IFRS 18 *Presentation and Disclosure in Financial Statements* ("IFRS 18")

IFRS 18 replaces IAS 1, *Presentation of Financial Statements* ("IAS 1"), carrying forward many of the requirements in IAS 1 unchanged and complementing them with new requirements, including specified categories and defined subtotals in the statement of comprehensive income. IFRS 18 is required to be applied retrospectively for annual reporting periods beginning on or after January 1, 2027, with earlier application permitted. The Fund is currently assessing the impact of adoption of this standard.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2026 | UNAUDITED

3. Summary of Material Accounting Policies (continued)

C. Financial Instruments

The Fund's financial instruments may include: short-term investments, fixed income, equities, structured products, derivatives (collectively referred to as "investments"), cash, accounts receivable – portfolio securities sold, income and interest receivable, accounts receivable, subscriptions receivable, prepaid expenses, accounts payable – portfolio securities purchased, management fee payable, accounts payable and accrued liabilities, redemptions payable and distributions payable. The Fund recognizes financial instruments at fair value upon initial recognition, plus transaction costs in the case of financial instruments measured at amortized cost. Regular way purchases and sales of financial assets are recognized at their trade date. The Fund's investments and derivative assets and liabilities are measured at fair value. The Fund's Net Assets Attributable to Holders of Redeemable Shares are measured at fair value. All other financial assets and liabilities are measured at amortized cost. Under this method, financial assets and liabilities reflect the amount required to be received or paid, discounted, when appropriate, at the contract's effective interest rate. The Fund's accounting policies for measuring the fair value of its investments and derivatives are identical to those used in measuring its net asset value ("NAV") for transactions with shareholders.

The Fund only offsets financial assets and financial liabilities if the Fund has a legally enforceable right to offset recognized amounts and either intends to settle on a net basis or to realize the asset and settle the liability simultaneously.

D. Redeemable Shares and Net Assets Attributable to Holders of Redeemable Shares

The Fund has one series of redeemable shares in issue, Series A, for which the management fee rate is 0.5%.

Redeemable shares can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's NAV attributable to the share class. The redeemable shares are classified as financial liabilities and are measured at the redemption amounts.

Redeemable shares are issued and redeemed based on the Fund's NAV per share, calculated by dividing the net assets of the Fund, calculated in accordance with the Fund's Simplified Prospectus, by the number of redeemable shares in issue. The Fund's Simplified Prospectus requires that investment positions are valued on the basis of the last traded market price for the purpose of determining the trading NAV per share for subscriptions and redemptions.

The financial assets and liabilities at fair value through profit or loss in the Statements of Financial Position are based on closing prices in accordance with IFRS Accounting Standards as issued by the IASB.

Distributions are declared at the discretion of the board of directors of the Corporation. The board of directors has adopted a policy of annually assessing the Corporation's net income and net realized capital gains and declaring distributions including, if applicable, capital gains dividends to refund tax which would otherwise be payable by the Corporation. Distributions to holders of redeemable shares are recognized in the Statements of Changes in Net Assets Attributable to Holders of Redeemable Shares. Income not distributed is included in Net Assets Attributable to Holders of Redeemable Shares. No distributions have been paid by the Fund.

E. Fair Value Measurement

The Fund's own credit risk and the credit risk of the counterparty are taken into account in determining the fair value of financial assets and financial liabilities, including derivative instruments. Investments and futures contracts are valued at fair value using the policies described below.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets are based on quoted market prices at the close of trading on the reporting date. The Fund uses the last traded market price for both financial assets and financial liabilities where the last traded price falls within that day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the specific facts and circumstances.

The fair value of financial assets and liabilities that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date. Valuation techniques used include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity specific inputs.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2026 | UNAUDITED

3. Summary of Material Accounting Policies (continued)

F. Investment Transactions and Income Recognition

Investment transactions are accounted for as of the trade date and any realized gains or losses from such transactions are calculated on an average cost basis. Average cost does not include amortization of premiums or discounts on fixed income securities with the exception of zero coupon bonds. The change in the difference between fair value and average cost of the investments is recorded as an unrealized gain (loss) on investments. Income from investments is recognized on the ex-dividend or ex-distribution date. Interest income for distribution purposes shown on the Statements of Comprehensive Income represents the interest received on bank deposits by the Fund and, if the Fund holds fixed income investments, coupon interest accounted for on an accrual basis. The Fund does not amortize premiums paid or discounts received on the purchase of fixed income securities except for zero coupon bonds which are amortized on a straight line basis. The interest income for distribution purposes is the tax basis of calculating the interest received and which is subject to tax. Income distributions received are treated consistently with dividends and interest and recorded in income in the Statements of Comprehensive Income.

G. Increase (Decrease) in Net Assets Attributable to Holders of Redeemable Shares Per Share

Increase (Decrease) in Net Assets Attributable to Holders of Redeemable Shares per share in the Statements of Comprehensive Income represents the increase (decrease) in Net Assets Attributable to Holders of Redeemable Shares divided by the average shares outstanding during the period.

H. Income Taxes

The Corporation qualifies as a mutual fund corporation as defined in the *Income Tax Act* (Canada) (the "Tax Act"). The Corporation is subject to tax at the full corporate rate on its taxable income. Dividends received from taxable Canadian corporations are generally not included in the taxable income of the Corporation but are subject to a special tax, refunded at a rate of 38 1/3% of taxable dividends distributed by the Corporation to its shareholders. Capital gains realized in the period are included in the taxable income of the Fund at the applicable capital gains rate. The Corporation is eligible for a refund calculated on a formula basis when mutual fund shares are redeemed or when capital gains dividends are paid to shareholders. The Corporation endeavours to pay out sufficient Canadian dividends and net capital gains so that it will not be subject to refundable income taxes in respect of income from those sources. However, the Corporation will be liable for non-refundable income tax if its income from other sources exceeds its expenses for the period.

Temporary differences between the carrying values of assets and liabilities for accounting and income tax purposes give rise to future income tax assets and liabilities. The most significant temporary difference is that between the reported fair value of the investment portfolio and its adjusted cost base ("ACB") for income tax purposes. To the extent that the fair value of the portfolio exceeds its ACB, a future tax liability arises. Since capital gains taxes payable by the Corporation are refundable under the relevant provisions of the Tax Act, the future tax liability is fully offset by these future refundable taxes. Conversely, when the ACB exceeds the fair value of the portfolio, a future tax asset is generated. In such cases, a full valuation allowance is taken to offset this asset given the uncertainty that such future tax assets will ultimately be realized.

I. Foreign Currency Translation

Foreign currency amounts are translated into Canadian dollars as follows: fair value of investments, forward currency contracts and other assets and liabilities, at the closing rate of exchange on each business day; income and expenses, and purchases, sales and settlements of investments, at the rate of exchange prevailing on the respective dates of such transactions.

J. Critical Accounting Estimates and Judgments

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Fund has made in preparing the financial statements:

Fair Value Measurement of Derivatives and Securities Not Quoted in an Active Market

The Fund may hold financial instruments that are not quoted in active markets, including derivatives. Fair values of such instruments are determined using valuation techniques and may be determined using reputable pricing sources (such as pricing agencies) or indicative prices from market makers. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding. Where no market data is available, the Fund may value positions using its own models, which are usually based on valuation methods and techniques generally recognized as standard within the industry. The models used to determine fair values are validated and periodically reviewed by experienced personnel of the Manager, independent of the party that created them. The models used for private equity securities are based mainly on earnings multiples adjusted for a lack of marketability as appropriate.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2026 | UNAUDITED

3. Summary of Material Accounting Policies (continued)

J. Critical Accounting Estimates and Judgements (continued)

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require the Manager to make estimates. Changes in assumptions about these factors could affect the reported fair values of financial instruments. The Fund considers observable data to be market data that is readily available, regularly distributed and updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. Refer to Note 4 for further information about the fair value measurement of the Fund's financial instruments.

4. Fair Value Disclosure

The Fund classifies fair value measurements within a hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund held only cash as at June 30, 2026 and December 31, 2025.

All fair value measurements above are recurring. The carrying values of cash, income and interest receivable, subscriptions receivable, accounts payable and accrued liabilities, management fee payable and the Fund's obligation for Net Assets Attributable to Holders of Redeemable Shares approximates their fair values due to their short-term nature.

Fair values are classified as Level 1 when the related security is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3.

The Fund's policy is to recognize transfers in and out of the fair value hierarchy levels as at the end of the reporting period for transfers between Levels 1 and 2 and as at the date of the transfer for transfers in and out of Level 3. No transfers between levels occurred during the period ended June 30, 2026 or the year ended December 31, 2025.

5. Financial Risk Management

In the normal course of business the Fund is exposed to a variety of financial risks: interest rate risk, foreign exchange rate risk, liquidity risk, credit risk and concentration risk. The Fund's primary risk management objective is to protect earnings and cash flow and, ultimately, shareholder value. Risk management strategies, as discussed below, are designed and implemented to ensure the Fund's risks and related exposures are consistent with its objectives and risk tolerance.

Most of the Fund's risks are derived from its investments. The value of the investments within the Fund's portfolio can fluctuate on a daily basis as a result of changes in interest rates, economic conditions, commodity prices, the market and company news related to specific securities held by the Fund. The investments are made in accordance with the Fund's risk management policies. The policies establish investment objectives, strategies, criteria and restrictions. The objectives of these policies are to identify and mitigate investment risk through a disciplined investment process and the appropriate structuring of each transaction.

A. Interest Rate Risk

Interest rate risk describes the Fund's exposure to changes in the general level of interest rates. Interest rate risk arises when the Fund invests in interest-bearing financial assets such as cash, bankers' acceptances, treasury bills, promissory notes and other debt securities. The earnings of the Fund are positively correlated to interest rates as they relate to interest on cash balances. Rising interest rates serve to increase the Fund's earnings while the reverse is true in a declining interest rate environment. The Fund is also exposed to the risk that the value of financial assets such as bonds and debentures will fluctuate due to changes in the prevailing levels of market interest rates. The value of such financial assets is negatively correlated to interest rates. The Fund seeks to mitigate this risk through active management, which involves analysis of economic indicators to forecast Canadian and global interest rates. The tables below summarize the Fund's exposure to interest rate risk by remaining term to maturity as at June 30, 2026 and December 31, 2025.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2026 | UNAUDITED

5. Financial Risk Management (continued)

A. Interest Rate Risk (continued)

As at June 30, 2026	Less than 1 Year
Cash	\$ 2,590,785
Total Exposure	\$ 2,590,785

As at December 31, 2025	Less than 1 Year
Cash	\$ 3,060,653
Total Exposure	\$ 3,060,653

Based on the above exposure at June 30, 2026, a 1% per annum increase or decrease in interest rates would result in a \$25,908 (December 31, 2025 – \$30,607) increase or decrease in net assets of the Fund, with all other factors held constant.

B. Foreign Exchange Rate Risk

Foreign exchange rate risk describes the impact on the underlying value of financial instruments due to foreign exchange rate movements. The Canadian dollar is the Fund's functional and presentation currency. Foreign investments, commodities, receivables and payables denominated in foreign currencies are affected by changes in the value of the Canadian dollar compared to foreign currencies. As a result, financial assets may depreciate/appreciate in the short-term due to the strengthening/weakening of the Canadian dollar against other currencies, and the reverse would be true for financial liabilities. The Fund's exposure to foreign exchange risk relates primarily to its cash in U.S. Dollars. The Fund has not hedged its exposure to currency fluctuations, however, it closely monitors relevant foreign exchange currency movements. The Fund is exposed to foreign exchange rate risk through the following financial instrument:

	June 30, 2026	December 31, 2025
Cash	\$ 1,312	\$ 1,248

Based on the above exposure at June 30, 2026, a 10% increase or decrease in Canadian dollar against U.S. dollar would result in a \$131 (December 31, 2025 - \$125) decrease or increase in net assets of the Fund, with all other factors held constant.

C. Liquidity Risk

Liquidity risk is defined as the risk that the Fund may not be able to settle or meet its obligations when due. The Fund is exposed to daily cash redemptions of its shares. The shares of the Fund are issued and redeemed on demand at the NAV per share. All other obligations of the Fund are due within one year. Liquidity risk is managed by investing the majority of the Fund's assets in investments that are traded in an active market and can be readily sold. The Fund retains sufficient cash to maintain liquidity and comply with liquidity requirements as outlined by securities legislation and its investment policies.

The tables below present the Fund's financial liabilities based on the remaining period to the contractual maturity date. The amounts in the tables reflect the contractual undiscounted cash flows.

As at June 30, 2026

Financial Liabilities	Less than 1 Month	1 to 3 Months	3 Months to 1 Year	Total
Accounts Payable and Accrued Liabilities	\$ 23,099	\$ -	\$ -	\$ 23,099
Management Fee Payable	913	-	-	913
Income Tax Payable	442	-	-	442
Net Assets Attributable to Holders of Redeemable Shares	2,821,825	-	-	2,821,825
Total	\$ 2,846,279	\$ -	\$ -	\$ 2,846,279

As at December 31, 2025

Financial Liabilities	Less than 1 Month	1 to 3 Months	3 Months to 1 Year	Total
Accounts Payable and Accrued Liabilities	\$ 22,999	\$ -	\$ -	\$ 22,999
Management Fee Payable	779	-	-	779
Income Tax Payable	442	-	-	442
Net Assets Attributable to Holders of Redeemable Shares	3,045,289	-	-	3,045,289
Total	\$ 3,069,509	\$ -	\$ -	\$ 3,069,509

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2026 | UNAUDITED

5. Financial Risk Management (continued)

D. Credit Risk

Credit risk represents the financial loss that the Fund would experience if a counterparty to a financial instrument failed to meet its obligations to the Fund. The Fund is exposed to credit risk on its debt instruments, derivative assets, cash and cash equivalents and other short term trade receivables. The Fund measures credit risk and lifetime ECLs related to the trade receivables using historical analysis and forward looking information in determining the ECL. The carrying amounts of financial assets represent the maximum credit exposure. All transactions executed by the Fund in listed securities are settled upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase only once the broker has received the securities. The trade will fail if either party fails to meet its obligations. There is no significant credit risk related to the Fund's receivables.

The Fund's credit risk is primarily attributable to its investment in debt instruments because the issuer of the instrument may be unable to make interest payments or repay the principal amount on maturity. The concentration of credit risk of investments in debt instruments is minimal since the Fund invests in a variety of debt instruments issued by numerous issuers.

The Fund has established various internal controls to help mitigate credit risk, including prior approval of all investments by the advisor whose mandate includes conducting financial and other assessments of these investments on a regular basis. The Fund has also implemented policies which ensure that investments can only be made with counterparties that have a minimum acceptable credit rating.

As at June 30, 2026 or December 31, 2025, the Fund did not hold any short-term investments.

E. Concentration Risk

The Fund is exposed to the possible risk inherent in the concentration of the investment portfolio in a small number of investment sectors. The Manager moderates this risk through careful selection of securities in several investment sectors. The Fund held only cash as at June 30, 2026 and December 31, 2025.

6. Share Capital

The mutual fund shares and five common shares of the Corporation have equal rights and privileges except that the common shares may not be redeemed. Changes in issued mutual fund shares of the Fund are summarized as follows:

	Number of Shares – Series A	
	June 30, 2026	December 31, 2025
Shares Outstanding at Beginning of Period	224,788	218,725
Shares Issued	168	9,007
Shares Redeemed	(17,100)	(2,944)
Net Increase (Decrease)	(16,932)	6,063
Shares Outstanding at End of Period	207,856	224,788

The average number of Series A shares outstanding during the period ended June 30, 2026 was 213,838 (June 30, 2025 – 218,174). These numbers were used to calculate the Increase (Decrease) in Net Assets Attributable to Holders of Redeemable Shares per share.

7. Related Party Transactions

A. Management Fee

The Manager provides investment and administrative services to the Fund. In consideration for such services the Manager receives a monthly fee in arrears of 0.50% per annum of the average daily NAV of the Fund. During the six-month period ended June 30, 2026, the Manager waived 70% (June 30, 2025 – 70%) of the management fee. For the period ended June 30, 2026, management fees before the absorption of expenses amounted to \$2,200 (June 30, 2025 - \$2,000).

B. Other Expenses

The Fund is responsible for the payment of all expenses relating to the operation of the Fund and the carrying on of its business, including among other things, audit, legal fees and expenses, custodian and transfer agency fees and costs relating to securityholder reporting. Certain services in the normal course of business may be provided by the Manager or an affiliate of the Manager in accordance with National Instrument 81-107 *Independent Review Committee for Investment Funds*. Examples of these services include accounting review and administration services, the preparation and filing of tax returns, the preparation and filing of financial statements and related reports and maintaining and updating the Fund's website. In aggregate, these fees amounted \$5,003 (June 30, 2025 - \$6,086) throughout the period. Included in this amount is \$5,586 (December 31, 2025 - \$6,175) payable as at June 30, 2026. In addition, the Fund would be responsible for reimbursing the Manager for any reasonable out of pocket expenses incurred on the Fund's behalf.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2026 | UNAUDITED

8. Transaction Costs

There were no brokerage commissions or other transaction costs paid in connection with securities transactions during the period ended June 30, 2026 or the year ended December 31, 2025.

9. Loss Carryforwards

At December 31, 2025, the Corporation had no non-capital losses (December 31, 2024 – \$nil) and no capital losses (December 31, 2024 – \$nil) available for carryforward for tax purposes.

10. Capital Management

The Fund's capital is its Net Assets Attributable to Holders of Redeemable Shares, representing shareholders' equity. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for shareholders, maximize shareholder value and maintain financial strength.

The Fund is not subject to any externally imposed capital requirements. The Fund's overall strategy with respect to capital risk management remains unchanged from the year ended December 31, 2025.
